BUSINESS STRATEGY.

BUILD PORTFOLIO AND CREATE PRESENCE BY:

- Setting up and acquiring strategic properties for commercial ventures
- Acquiring and developing properties for franchise opportunities
- Setting up and acquiring land for residential markets for sales and rentals
- Partnering with strategic funding organisations for home ownership solutions

Our approach in the formative stages of our business is to focus on smaller projects, whether residential or commercial. Our project construction time is planned to be less than one year to prevent capital from being stuck too long in development. This will require a lot of preparation time for various projects.
